

## Class Activities for September 15, 2014

1. Remember to be on your BEST behavior today! Complete and turn in (or submit via email) your assignment BEFORE leaving class today.
2. Open my website and go to the Algebra 2 tab, then click on WORKSHEETS. Complete problems 1-22 (You can't do #16 or #19 yet; skip those two.) on the **SECOND** page of worksheet [factoring\\_practice\\_5-4.pdf](#)
3. If you are having trouble remembering how to factor a certain type of polynomial, you are allowed to watch the VIDEOS (there is a video for every type of factoring) on factoring. **Remember that your IPAD will be taken up if you are on any site or app that you have not specifically been given permission to be on.** You MUST have ear buds in to watch the video with the volume up. You can watch it on silent and still benefit from watching.
4. If you complete the whole assignments in class you may begin your homework, otherwise you must complete this assignment at home. Watch the video "[Solving Quadratic Equations by Factoring](#)" and complete the **odd** problems on the following worksheet: [quadratic\\_equations\\_by\\_factoring.pdf](#).
5. You may listen to music while you work provided that you wear ear buds and NO ONE but you can hear your music.
